

Anti-Harassment Statement 2018 Annual Conference

The American Public Gardens Association is dedicated to providing a harassment-free experience at Association events. We seek to provide a conference environment in which diverse attendees learn, network, and enjoy the company of other attendees in a professional environment. The Association does not tolerate harassment in any form. Discriminatory language, behavior, or imagery that renders discomfort in others is not appropriate. Those who violate these standards risk being immediately barred from further event participation or referred to appropriate authorities.

To report an incident or problem at the conference: Speak with either Kate Tyrawski – (302) 290-5467 - ktyrawski@publicgardens.org or Casey Sclar - (484) 883-9271 - csclar@publicgardens.org. All reports will be treated with strict confidentiality. If the situation requires immediate interdiction, please contact Disneyland Hotel Security or local law enforcement by dialing 911.
